Back In The Days When Grimsby Did Things In a Big Way

PROMINENT FRUIT GROWER IS SUDDENLY REMOVED BY DEATH

Thomas Rienza Hunter Found Slumped Over Wheel Of His Truck After Unloading Grape Load.

IN 64th YEAR

Was One Of District's Best And Largest Fruit Growers — Served Grimsby As Water Commissioner.

Death came suddenly and unexpectedly to one of Grimsby's finest citizens, and one of the districts largest and most prominent fruit growers on Thursday afternoon last, when Thomas Rienza Hunter answered the call of His Maker.

Decorous gentleman had been busy all day harvesting his grape crop and late in the afternoon had taken a load of grapes to the Niagara Packers for shipment. Part of the load was unloaded into a car and the balance had been unloaded into the packing shed. After unloading the last of the grapes he secured an order of basket hooks and then walked down to Merritt Bros. to place an order for more baskets, leaving his truck standing at the door of the shed.

He had apparently come back to the truck, got in and started the engine, but did not drive away. Other trucks wishing to unload had arrived and the men in the packing shed wondered why he did not drive away. One of them went to the door of the cab of the truck and opened it to ask him to move up, as the door opened his one leg fell out and he was found slumped over the steering wheel. Dr. J. H. MacMillan was hurriedly called and upon arrival pronounced life extinct.

T. R. Hunter was a large, jovial man who had a good word for everybody and never a bad word for anybody. His friends were legion throughout the district. He was known as a good grower who produced the finest of Grimsby fruits.

Issue First Writ Of Habeas Corpus

Legal History Made In Lincoln County By Herman Rogers, St. Catharines Lawyer.

One of the first Habeas Corpus Writs to be issued in the history of Lincoln County has been authorized by Justice Hogg of the Supreme Court of Ontario to authorize the appearance before the Supreme Court of Cpl. George H. Thompson, No. 2 Coy., Royal Canadian Electrical Mechanical Engineers, Niagara Camp, allegedly improperly held in close custody at the Niagara Camp military jail for three months. The Habeas Corpus Writ dates back to Charles II of England.

The writ was obtained on behalf of Cpl. Thompson by Herman Rogers of the St. Catharines law firm of Bench, Keogh, Rogers and Grass. Mr. Rogers served as a major with legal branch of the Canadian Army and was recently discharged.

On a charge of stealing public property reportedly preferred by the Provost officers, Thompson was arrested June 30, and on July 2 released. On the afternoon of

Red Rosy Apples Will Be For Sale

Grimsby Boy Scouts Will Hold Their Apple Day On Saturday — Funds For Club House.

The boys of the First Grimsby Scout troop Cub pack are very busy decorating baskets and preparing posters for apple day this Saturday OCTOBER 13th. For which prizes will be given to the winners of both Scouts and Cubs. The mystery man will also be on the look out for the best salesmen and when he located the ideal boy he will deposit the lucky coin.

Yes we have secured the apples; so you supporters of the Scout troop please get ready for the only good feed you will have this winter. How did we get them Oh, that's no secret one of our good citizens who knows the whereabouts of supply secured apples in Simcoe for us. Good old Mackintosh and snows. Gee won't they taste swell.

The scouts are still trying to collect sufficient funds to buy a camping grounds so we again ask the citizens of Grimsby to be generous and help us attain our camp. Yes, boys work is a worth while asset and we ask every citizen of this community to so support the work by donating this coming Saturday.

The following tenderfoot scouts have recently joined the troop. Jimmy Nelles, Sidney Henley, Rudolph Kryashoski, Danny Phillips and we expect in the very near future to have six cubs advance into Scouting from the cub pack. This coming up ceremony date will be announced later but we wish to take this opportunity now of inviting parents and friends of both Scouts and Cubs to come out on this occasion to see the boys in actual work.

Remember Apple This Saturday, October 13th.

I love a parade. You love a parade. Everybody loves a parade. Back in the old days Grimsby had some wonderful parades. For some years every Labor Day was a big day in Grimsby. Parades, horse races and everything. Even before that there was the annual caltumpian parade on Dominion Day. This picture shows a portion of one of the Labor Day parades. How long ago was it? Who are the men in the picture?

LINCOLN'S LOCKHART SPEAKS ON OLD AGE PENSION SYSTEM

Sirloin Steaks 15 Cents a Lb.

Not Today, Folks, That Was Back In 1934 — Roasting Chickens 19c a Lb.

Back in the middle of the depression years housewives had no rationing restrictions to bother them, they did not even have high prices to contend with. In a lot of cases their big trouble was getting enough money to buy food-stuffs.

Roy St. John, who recently disposed of the Quality Meat Market, brings into The Independent a copy of his advertisement which appeared in that paper on November 28th, 1934. The middle of the depression. To read the prices makes one wish for the "good old days."

BEER—round steak, 2 lbs. 25 cents; sirloin steak or T-bone steak, 15 cents a lb.; blade roast, round bone roast, 10cents; chuck roasts, eight cents; whole flanks five cents; beef shanks, five cents.

YEARLING LAMB—legs, lb. 14 cents; loins 12½ cents; front quarters, eight cents; stewing lamb, five cents.

Roasting chickens, 19 cents a lb.; tomatoes, three tins, 25 cents; potatoes, 90 lb. bag, 49 cents; Clark's soups, four tins for 25 cents; weiners, 15 cents a lb.

Some difference in 11 years time.

PULLS NO PUNCHES Government Found Money For Babies, But Can Find None For Old People — Citizenship a Question.

NOTE—Here is the complete speech of N. J. M. Lockhart Member for Lincoln, in the House of Commons, as reported by Hansard, on October 3rd. "Mac" is discussing the Old Age Pension system as at present constituted and he pulls no punches in his remarks to the House, particularly to the government side—ED.

Mr. Norman J. M. Lockhart (Lincoln): Mr. Speaker, may I offer my word of congratulation to the hon. member for Spadina (Mr. Croll) who has so ably presented views which, I believe, were based on actual experiences he has had, in more ways than one. I must say I was in accord with him when in a sense he criticized the present administration for not having developed and improved the Old Age Pensions Act before this time. I am quite sure the hon. member will acquit himself honourably in this chamber. Those who have had earlier associations with him will agree that he will add much to the discussions in the days to come.

I can readily understand that the introduction of this resolution is only the beginning of much that will be said in the house respecting

Bold Bad Robbers Crossed Us Up

Tip-Off That Bank Stick-Up Would Take Place In Grimsby Or District Had Everybody Hot.

Did you ever see a bank robber? Neither have we. Not in Grimsby at least.

For two days last week our citizenry were peeking around corners and out from behind drawn window blinds in the hopes that they would catch a glimpse of a bold, bad bank robber in action, but they were all doomed to disappointment.

Provincial Police received a tip-off last Wednesday that there was a great possibility that the bank in either Grimsby, Beamsville or Vineland would be held up by the end of the week. They took every precaution to prevent such a thing happening, but the attempt was never made.

Thursday and Friday one could hardly turn around on Main and adjacent streets without falling over a "Provinch", either in uniform or in plain clothes. All suspicious looking strangers were carefully watched. Local staff of the Bank of Commerce were on the que vive and the Village Banker was a regular travelling arsenal.

Had the bold brigands arrived at any one of the three points mentioned above, they would have received a reception about as hot as the Japs got when the atomic bomb landed.

New Health Unit Fully Organized

Harry Gale, St. Catharines' Alderman, Chairman For 1945-46 — Is Government Appointee.

Harry Gale, St. Catharines businessman and member of the city council, has been elected chairman of the St. Catharines-Lincoln County Health Unit for the remainder of 1945 and for 1946. Mr. Gale has been appointed to the unit board by the Ontario government, while three members represent the city and three the county. All members of the board serve without remuneration.

The board confirmed the appointment of the Miss C. B. Genik as staff nurse for the unit, and the appointments of James Sutherland and Stanley Sharp as sanitary inspectors.

It was recommended that Dr. D. V. Currey, M.O.H., prepare a detailed report in regard to equipment to be taken over from the Department of Health and that the price of the two motor cars be included in the inventory.

A health unit office will be opened in Beamsville at an early date. The County Home and School Association Council will be advised that the staff and board of the unit will assist the various associations in any way possible.

W. W. Pollock was appointed board auditor, and meetings will be held the second Monday of each month at three p.m. at the municipal building in St. Catharines.

The Thomas Studio of Portraiture will reopen for business in the old Stephens block, on Main west, about the end of this month. Mr. Thomas has purchased this block and the studio will be upstairs on the Main street side of the building.

POLICE WILL PROSECUTE DOG TAX DELINQUENTS

Council Unanimous That Summons Should Be Issued At Once — Bylaw Passed Giving Citizens a Chance To Vote At January Elections As To Whether Water Commission Be Dissolved Or Retained — Building Permits Granted — Court Of Revision October 29th.

Town council in session until 11.35 last night spent most of the evening in discussion on a large number of subjects, all of importance to the town but productive of no real news.

Most important business of the evening was the passing of the necessary two readings of a by-law to take a vote at the January election to dissolve or retain the Water Commission. If the citizens vote for dissolution then the waterworks system would come under the direct control of the council. If such a thing does happen then council no doubt would be faced with the alternative of employing a high class superintendent with experience along all lines of municipal utilities work or an engineer. This one point was thoroughly discussed.

Dog owners who have not paid their canine tax are in for trouble, for council was unanimous in approving that the police department take immediate steps to summon all delinquent taxpayers to court.

Mayor Bull reported that he had been forced to send Chief of Police Turner to a Robinson street resi-

dent in order to make him procure a building permit for work that he was doing, after he had refused to pay attention to the Building Inspector; also to cease doing construction work on the Lord's Day.

Earl J. Marsh was granted a building permit for a new storey and a half frame house on Kingsway Boulevard at an estimated cost of \$8,000. Shafer Bros. have the contract.

Jack Slade requested a permit for a new garage and service building on Main west, 30x50. Council laid the matter over until complete blueprints and specifications are procured.

Tax Collector Jewson reported taxes collected during September, current and arrears, for all years totalled \$734.29 as compared to \$1,209.73 for 1944; total taxes collected from January 1st to Sept. 30th, current and arrears, \$42,734, as against \$48,617 in 1944. The reason of the drop in collection is due to the fact that a greater amount of arrears were paid up last year. 1945 taxes paid to Sept. 30th amount to \$39,454.

NIAGARA PENINSULA FINEST SECTION OF WORLD TO LIVE

Mrs. Laba Arrives In New Zealand

Wellington Newspaper Carries Picture And Story Of Her And The Children — Landed In August.

The Independent is indebted to Godfrey Heathcote for a copy of the New Zealand Free Lance, published at Wellington, N.Z. the date of August 15th. This particular copy of the paper carries a two-column picture of Mrs. Roy Laba and her four Grimsby born children, with the following caption line:

WIDOWED FEW YEARS AFTER MARRIAGE, Mrs. Roy Laba has shepherded her bonny little brood to home-haven in Dunedin. As Patsy Stephens she won note in repertory theatrical roles and in England toured with several repertory companies.

In an adjoining column is the following short news story:

SAD HOME-COMING, Mrs. Roy Laba, the former Patsy Stephens of Dunedin, has returned home a young widow with her family of four after seven years abroad. It was in 1938 that she fared forth to study dramatic art in London, and in 1940 she married a Canadian Soldier and subsequently returned to Canada with him in 1942. Their home was at Grimsby, Ontario, in the great fruit-growing district called "The Garden of Canada." Four-year-old Michael was born in England, but Elizabeth, Richard and Anna are young Canadians. Very sadly, her husband died last August and Mrs. Laba made plans to return to New Zealand. They left Canada in June this year and spent some time in New York awaiting transport. Mrs. Laba is at present living with her father, A. C. Stephens, dean of the Otago Law Faculty.

AN IDEAL CLIMATE In This Section There Is Never Any Major Catastrophe Or Disaster — Is Real Shangri-La.

By NORAH C. STEAD

The following true story, related by a prominent newspaperman, should warm the hearts of the residents of the Niagara Peninsula and permit a greater appreciation of what we, so very often accept as a minor variation.

A remittance man returning from an extensive stay abroad, became friendly with a Canadian aboard ship, while journeying down the St. Lawrence River. Shipmate acquaintances rapidly assumed the role of intimate friends, adventures, yarns and experiences were soon exchanged.

The remittance man told of his trips and experiences in Japan, Norway, New Zealand, Egypt, England, France, and many other countries he had visited.

All these countries had singular charms of their own, scenic beauty, natural advantages over others, their customs and specialties.

Finally the Canadian inquired: "With your knowledge of the coun-

Pheasant Hunting Dates Are Set

Three Days In Lincoln County — October 24th, 26th, 27th — Three Cock Birds Per Day.

An open season for the taking of pheasants has been arranged for all regulated townships on Friday and Saturday, October 26 and 27, with the exception of the counties of Lincoln and Welland where the open dates will be Oct. 24, 26 and 27, and in the township of Townsend, Norfolk County, where there will be one day of shooting only, Oct. 27. Announcement was made last week by Game and Fisheries Minister George Dunbar.

A bag limit of three cock birds per day has been set by the department, and shooting will be permitted from 8 a.m. to 5 p.m. In addition to a gun license, every hunter who wishes to shoot in these regulated townships must first obtain a township permit from the clerk of the municipality. This costs \$1.00 per day.

FACTS & FANCIES

Frank Fairborn, Jr.

"COME, SWING ALONG, CANADIANS."

The noble sons of Canada
Have fought on many a field.
On land and sea and in the air,
Our homes to guard and shield.
Let us at home still do our share
Towards bringing peace on earth,
Come, lend your mighty dollars,
Lend again, for all you're worth.
Come, swing along, Canadians,
Come, let's get into stride!
Buy another Victory Bond,
And another one, beside.
Come along, Canadians,
Help us the peace to bring,
Come, lend us of your bounty
For our Empire, and our King.

—Gladys M. B. Rolston

Since this poem was written peace treaties have been signed by the warring nations. Nevertheless, the order "Cease Fire" has not completed our task of bringing peace on this earth, as we are still "under orders" from our Lord Jesus Christ, to look after and care for all in need; not only in our own community, but throughout the whole world. Until we play the part of good neighbours to others, whatever their creed or colour—and do our very best to make happy all with whom we come in contact, we shall not have a true and lasting peace.

We welcome back our loved ones, but we must also see to it that those who gave "their all" did not make the supreme sacrifice in vain.

So, let us not only lend our "mighty dollars" towards the good of all mankind, let us also welcome the stranger within our gates, and ALL BE GOOD NEIGHBOURS.

ORDEAL BY HIGHWAY

(Hamilton Spectator)

Why is it that the Department of Highways is so determined in its belief that all super-highways must avoid the smaller cities and towns, but must lead directly into the heart of Toronto? The Queen Elizabeth Way carefully skirts Hamilton, diverts tourist traffic from all the smaller centres in the Niagara Peninsula which badly need the revenue from visitors, and ends abruptly with a large stone lion gazing smugly into the heart of the Queen City.

From then on the motorist must thread his way, provided he is going east, through a maze of streets, over railway tracks, past fermenting bodies of water, through the back yards of factories until he finally emerges black in the face at the Woodbine.

We made the trip twice recently, and the black in the face business is literally true. The air in some places was thick with smoke and soot, in one spot it was apparently extracting day in a skunk factory and in another some perverted person was frying Camembert cheese, or so it seemed.

If this is a more pleasant journey for tourists than driving through St. Catharines Grimsby or Beamsville, which have been so rigidly skirted, then some highway engineers must have peculiar tastes.

Why not build a road around Toronto for a change?

HOW DO YOU DEFINE A NEWSPAPER MAN?

Has the question ever been put to you? If it has, have you been able to answer it? The other evening I was introduced to some folks and in the course of the ensuing conversation the fact that I was a newspaperman was mentioned. "Yes," said one of my party, "he's one of the nuts."

Just what is a newspaper man? He is the kind of fellow who will take abuse from a man all his life and then write in his obituary that nothing but friends were numbered among the acquaintances of the deceased, who was never known to utter a disparaging remark nor make a single enemy.

He is the kind of fellow who will tell

how lovely the bride looked when she walked up the aisle and wish her a lifetime of happiness and success in spite of the fact that her wedding invitations were sold to her by a city printer.

A newspaper man is the kind of fellow who writes columns and editorials on trading at home for the benefit of local merchants who use handbill advertising purchased from out of town firms.

He is the kind of fellow who will meekly say: "Yes Ma'am" and "I am for not mentioning this and that to an irate subscriber who has been getting the paper for years without making any payment for the subscription."

A newspaper man is the kind of fellow who goes around in shabby clothes, drives an out-moded car, and tips his hat to the smartly dressed person who owes him enough so he could buy a new suit of clothes for himself.

He is the kind of person who pushes every community enterprise, who puts the baseball team and basketball team on the map, but is called a chisler if he expects any complimentary tickets.

He is the man who praises you when you do something good and covers up for you when you do something wrong and gets the first kick when you are in a bad temper.

He is the kind of fellow you run to first for help and think of last when he needs help. If he's not "nuts" what is he?—Exchange

TRULY A WAR LOAN

Nowadays we are being jostled by problems of peace. Almost everything we read, all the utterances of public men, tends to emphasize the fact that the war is now history.

Yet, the Ninth Victory Loan which will be opened to the public on October 22, is definitely a war loan.

There exists no magic wand one can use to waft military forces from the scenes of battle to their normal home surroundings overnight. Unfortunately, long after the enemy cries surrender, the cost of war goes on. It is estimated, for example, that the country of Canada must raise a sum of about \$25,000,000.00 during the present year to provide adequate medical attention and hospitalization for the men who are coming back wounded and sick. Last year, members of the House of Commons were told that at that time \$750,000,000.00 would be needed to pay gratuities and take care of re-establishment credits to men returning from battle. One year having passed since then, the cost of that important undertaking has now reached about \$900,000,000.00. In addition to all that, the Canadian people must meet the cost of bringing the troops home, the maintenance of our forces of occupation in Germany. Pay of the men who are waiting demobilization goes on. Cheques to dependents keep going out until the soldier has his discharge paper.

There are heavy domestic expenditures, made heavier by the unprecedented demands of this period of re-construction in the country, which are included in the total of the Ninth Victory Loan objective. But of this we can be sure. The major portion of the money which Canadians will provide for the purchase of bonds in October and November is needed to cover the cost of war.

WHAT ABOUT IT, LADIES?

We are among those who believe in seeing full credit given where credit is due. And that's why we come to the defense of our fellow man in taking exception to a recent survey made by a national magazine disclosing that husbands, the breadwinners in the American home, also do a large share of the shopping, cleaning and cooking.

Certainly, we know men who have dishpan hands. In fact, we know some who prefer one soap powder to another. The survey showed that 80 per cent of the men washed dishes, and to this we take no exception. Nor do we object to the survey's report that men scrub bathtubs, clean rugs, wash windows, and whip up chocolate cake.

But in the name of all good husbands why did the survey overlook this all-important business of tending babies? Who sits with them while the woman of the house takes in a movie? Who rocks them to sleep or walks the floor with them?

Come now, ladies, why not come to the defense of these gallant, loyal men and give them all the credit they are entitled to?

"NOT AT HOME"

A cable despatch last week announced that after nine years Edward, Duke of Windsor, is to visit his mother, Queen Mother Mary, at Marlborough House.

"The Duchess will remain in France," adds the despatch.

In other words, Queen Mother Mary is not at home to "Wally" Simpson.

It is five years since the Duke has seen his brother, King George. The way of transgressors is hard; also that of ex-Kings.

Busy Little Hans

A disgusted correspondent of the London Daily Mail, Lane Norcott, after interviewing captured specimens of the German General Staff wired this story from Germany:

It becomes clear that the German people have always disliked the Nazi regime and hated war. They are the most fervent peace-lovers on earth, and Hitler has never been anything but abhorrent to them. Who, then, is responsible for this unwanted war? It was a small, bespectacled little kraut named Hans Puffer, of Bad-Muckinsstein. In 1938 Hans, unknown to the German people, elected Hitler to office by disguising himself and running in and out of a polling booth 13,400,000 times. He alone shouted all those enthusiastic "Sieg heils" whenever his Fuhrer paused for breath. Every one of those brown-shirted sub-men who used to goose-step down the Unter den Linden was Hans Puffer. He did it entirely with the aid of mirrors.

It was Hans Puffer who organized the concentration camps, who committed countless atrocities, who personally invaded Poland and started the war.

Do not let us blame the German people for the work of one man.

Of 66,000,000 German people it will soon be found that 65,999,999 were absolutely guiltless. Hans Puffer alone among the docile, home-loving gentle people is the real war criminal, and in our opinion he should be slightly punished.

WE'LL HAVE THE MONEY

to pay the BILLS

LIKE thousands of other Canadians, farmers will welcome the 9th Victory Loan as another opportunity to save money to provide for future plans.

Victory Loans have provided an excellent means of helping the war effort, at the same time contributing to our own personal welfare.

Canada needs more money now . . . to make loans to foreign countries so that they can establish credits which will enable them to buy food and other things which they require.

This food will come from Canadian farms; these goods from Canadian factories. When we help to create markets for our farm produce abroad . . . and when we help to keep Canadian factories busy . . . we help to maintain good prices for the things that Canadian farms produce.

Victory Bonds also provide a reserve fund of working capital for our own use . . . so handy to have so many times. Any bank will buy Victory Bonds at any time, or loan money on Victory Bonds if we need cash.

. . . and for our future plans, we'll have the money required for things we want to do . . .

Get ready to buy more Victory Bonds this Fall. Buy double this time—the same rate of savings as in previous loans will pay for twice as many bonds over the 12 month period.

Feminine Appetites

Esquire magazine says that it is a biological fact that women are so constructed that they can get along on less to eat than men, their appetites do not match men's, and consequently they are not so vitally interested in food.

Homefeathers!!

Just let that writer take a girl to a deluxe dining room and watch her sink her pearly teeth into expensive groceries and he will get an entirely new slant on feminine appetites and feminine interest in food.

Big Wardrobe For Circus Wear

Imagine having 700 elaborate garments in your "closet," with every one of them spotless and ripless and with all buttons, hooks and eyes and shoulder straps in perfect condition at all times! That's the job of Mrs. Jean Carson, chief wardrobe mistress for Ringling Brothers-Barnum & Bailey Circus. Mrs. Carson used to be a circus rider herself and knows what it means to be fresh and chic despite blistering heat and the ordeals of constant travel. Every one of the 700 costumes is gone over after each performance and so efficient is the system that Mrs. Carson can tell where each garment is at any given moment and what girl is wearing it.

Disturbing Evidence

There is a lady living next door to us who thinks men ride all the white horses in this world. She thinks women have a pretty hard time of it, and never hesitates to say so. In fact, she makes a study of it. She usually begins her tirade with "Women? Hah! Work their fingers to the bone—And for what? . . . "We've usually dozed from there on, and would probably never have brought the matter up, but for an unsettling paragraph in the New York Times. It announces that the British National Jewellers' association has discovered that women's fingers have become smaller during the past six years and are planning a reduction of standard wedding ring sizes.

The Higher The Heels

One of the more astonishing things about the feminine child growing up is its ingenuity. It can turn its age on and off with a flip of its eyelash, with such cunning and such skill, that it wins every encounter hands down, and makes its opponent think he likes it. A Toronto mother who has a feminine child, was brought to our attention the other day. It seems the youngster is very pretty and popular. For months she's been begging for a free rein, to be allowed to make her own dates, use her own discretion about hours, night spots, etc. Her mother capitulated finally, resigned that her baby was maturing at last, and let her go her way with the gang. The other day, though, she overheard the youngster at the telephone. Baiting her big beautiful eyes, she was discouraging an unwanted suitor. "My Mummy," she was saying with a near-lisp, "won't let me."

Hello Homemakers! Mothers are busy getting the children's clothes ready for school—mending, letting out and pressing. Youngsters always seem to "stretch up" so during the summer!

This year more mothers than ever will be making alterations on the children's clothes as well as their own. It is economical and it is wise. For instance you can:

- (1) Mend frayed edges of sleeves and make the jacket stylish too, by using bias strips of a contrasting material to pipe each sleeve.
- (2) Use any suitable remnants to line pockets or hand bags. Stitch the edges of skirt pleats to strengthen the material.
- (3) Hand stitch edges of jacket openings if the garment has lost its press.
- (4) Sew a "turned" edge on a hem which is not deep enough to let down.
- (5) Make side fasteners. Strips of hooks and eyes for repairing corselettes are available and you could clip off a section and stitch in the tab upon which the hooks and eyes are fastened.

Nearly every child is eager to help and now while mother is busy, young daughter may take over in the kitchen. With the encouragement of mother's praise, she will go a long way towards becoming an excellent cook. Simple dishes and guidance in the use of electrical appliances will make meal-getting easy for her.

You might give your daughter this menu to prepare on your sewing day.

Raw peaches, wheat porridge with milk, toast and honey, coffee.

Scalloped meat, mashed potatoes and corn-on-the-cob, baked custard and tea.

Devilled eggs, potato salad, sliced tomatoes, applesauce, cookies and milk.

POINTS IN OPERATING AN ELECTRIC SEWING MACHINE

1. Clean and oil the electric machine after each garment is made.
2. Use pure sewing machine oil—other oils gum. Use a small quantity.
3. Thread, needle and fabric must correspond for perfect workmanship. For the average family sewing, Nos. 60 to 90 thread is used and No. 1 needle for machine.
4. Purchase needles where sewing machine was bought. Place the needle in needle bar with flat side toward wheel. Fasten needle clamp securely with screw driver.
5. Always use the same thread in bobbin as on top of machine. Buy the best thread and that which corresponds to fabric—rayon on rayon only.
6. Replace bobbin firmly and correctly.
7. Never force the sewing machine to sew when it refuses once. Remove the shuttle and take out any lint or broken thread.
8. Many new electric machines are equipped with a forward and reverse stitch regulator which fastens ends securely. Reverse stitching must be 1-16 inch from the first line of stitching.

ANSWERS TO QUESTIONS ON SEWING MACHINES

1. If thick fabrics draw or pucker—tension is too tight, or stitch is too small.
2. If upper thread breaks constantly, look for one of these reasons: (1) Needle not set properly; (2) Machine not threaded correctly; (3) Upper tension too tight; (4) Thread uneven and needle too small; (5) A sharp needle eye.
3. If the under thread constantly breaks, the cause may be: (1) Bobbin case improperly threaded; (2) Too tight tension; (3) Bobbin too full of thread.
4. If the needle breaks, the cause may be: (1) The fabric has been pulled forward instead of backward; (2) The needle may not be raised high enough; (3) Bulky seams, which should be sewn only if you use a bar cap.

Note—Limited space does not permit directions on the value and practice of various attachments. However, we will be very glad to give assistance upon request.

Mrs. D. B. asks: What causes peppers to become bitter when baked?

Answer: Perhaps they had not been parboiled 2 mins. before they were stuffed for baking.

Mrs. J. C. suggests using fruit syrup in place of milk or water in making salad dressing.

Brownies

The Brownies have brought in a very fine collection of clothing for the National Clothing Drive, and the committee in charge wish to extend their thanks.

A number of Brownies have offered to go on Saturday to the White Elephant Shop and shine up the shoes which have been donated to the clothing drive. This is a very fine gesture on the part of the Brownies, and they are to be commended for their fine spirit of enthusiasm and co-operation.

If anyone has a couple of tennis balls which they would like to donate to the Brownies, they will be greatly appreciated. These balls need not be in suitable condition for tennis.

Trinity Service Club

Trinity Service Club held their Thanksgiving meeting on Tuesday, October 9th at three o'clock in Trinity Hall. After the business was over and plans for the season were discussed, Mrs. Mary Caton spoke on United Church missionary work in Canada. There is a wonderful amount of good being done by our workers all over the Country, both here and abroad.

Ann Terry played two delightful selections on the piano, and then tea was served by Mrs. L. Hysert, Mrs. G. Mitchell and Mrs. Earl Marsh.

Please leave your donations for the apron sale at Millyard's Drug Store, or take to next meeting. Sale and tea are on November 16th.

Coming Events

Notices under this heading will be charged at the rate of 35 cents for 30 words, or less. Over 30 words 1 cent per word.

The Ladies' Aid of St. John's Presbyterian Church will hold their Annual Chicken Supper in the Masonic Hall on Thursday, November 8th.

The next meeting of the Mothers' Club will be held at the home of Mrs. Tomison, 40 Robinson St. South, on Thursday, October 18th, at 3 o'clock. All mothers are cordially invited.

You are invited to attend the evening service in Trinity United Church this coming Sunday. The North Lake Shore Inter-Church Male Choir will render several numbers and conduct a Gospel Sing Song.

Timing The Stitch

Part of the "stitch in time" routine is keeping a sharp lookout for spots that are wearing thin and applying reinforcement measures before holes appear. At this stage any similar material may be used for the patch, which will be invisible when applied to the wrong side of the garment.

Stout leather patches applied to the knees of boys' breeches when new will add months of wear. Look to old purses and gloves to furnish the leather.

Women's Institute

The September meeting of the Women's Institute was held at the home of Mrs. L. E. Larsen.

Mrs. E. Kemp reported on the Soldier box collection. Mrs. E. Sutherland reported for sick committee.

Members selected to work on the National Clothing Drive this week were Mrs. E. Farewell, Mrs. F. Burton, Mrs. Bied, Mrs. E. Sutherland, Mrs. G. Warner.

Mrs. Wm. Layton, President, was chosen to lay the wreath on the Memorial this year on Armistice Day.

Mrs. G. Warner reminded members that help is needed with sewing for West Lincoln Memorial Hospital auxiliary.

Plans were made for the big Health meeting to be held on Tuesday, October 16th, in St. Andrew's Parish Hall. All organizations have been invited to hear Dr. D. V. Curry, of St. Catharines. Mrs. N. Morningstar will be convenor for the evening.

Mrs. L. E. Larsen arranged for "Galloping Breakfasts" to start in November. Proceeds to go to Institute funds.

A bazaar was also planned for December.

Mrs. S. Murphy read a comic poem "So Do I". Mrs. Wm. Layton also read a poem "Prayer and Potatoes."

Mrs. L. E. Larsen conducted games and also sang "The Beautiful Garden of Prayer". All members joined in a sing song. The social committee served a dainty lunch.

The meeting closed with the National Anthem. Next regular meeting will be held at the home of Mrs. E. Farewell on November 20th.

St. John's L. A.

The Ladies' Aid of St. John's Presbyterian Church held their October meeting at the Manse. Mrs. S. Harris, the President was very pleased to have such a large meeting. An apron shower for the coming bazaar was given, and there was a very pretty display of bright colors and new patterns.

The ladies are asked to remember the Sewing Bee Tuesday afternoon, and bring pieces of print, large or small.

The Annual Supper was arranged for to be held on Thursday, Nov. 8th, and it will be CHICKEN. Everyone has a hearty invitation. The meeting closed with the Misses' benediction.

A dainty lunch was served by the ladies, and all thanked Mr. and Mrs. McAvoy for the lovely afternoon.

It's the smart man who realizes he can be outsmarted.

Vinemount News

Many friends and neighbours gathered in Institute Hall for a miscellaneous shower for Mr. and Mrs. Russell Hunt, Hamilton, formerly Margaret Ready, daughter of Mr. and Mrs. Arnold Ready. Crokinole, cards and dancing were much enjoyed. Prize winners were Miss Dorothy Kinch, Mrs. Harry Althouse, Messrs Spencer Merritt, Alway Watt, Mrs. G. Gliddon, Irene Kurpe, Frank Kurpe. Music was supplied by Messrs. Harry Althouse, Mr. Hathaway Sr., and Mrs. Gimby. Hostesses, Mrs. Wm. Wilson and Mrs. Charles Kinch.

A meeting of the local Women's Institute was held in the W.I. Hall Tuesday afternoon. The president, Mrs. G. A. Gliddon, presided. Mesdames Harry Sturch and George Benner were in charge of program. Papers were read on Historical Research by Mrs. Carter, Winona, and Mrs. Harry Sturch, also community singing.

Friends of Mr. and Mrs. J. J. Dear, Hamilton, formerly of Vinemount, are rejoicing with them, on receiving word of the release of their daughter, Dorothy, who has been a missionary in Shanghai for several years, from a Shanghai internment camp. They had only received three letters of 25 words each in five years.

The members of the Tapleystown Women's Association held a meeting at the home of Mrs. Albert Marshall on Wednesday. The president, Mrs. John Sutherland, presided over the business and devotional exercises, assisted by Mrs. John Fleming and Miss Bertha Burkholder.

The Vinemount W.I. is sponsoring the used clothing campaign to help save the lives of suffering men, women and children in war-torn Europe. Receiving depots are as follows: East, Mrs. Harry Sturch; Vinemount centre, Mrs. George Gliddon; west, Mrs. Adam Reid.

EVENTS and TOPICS of the WEEK in TABLOID

Boy Scout Apple Day Saturday. County Council meets next Tuesday.

Victory Loan opens on October 22nd.

Township Council meets Saturday afternoon.

Grape thieving is prevalent in the Niagara-on-the-Lake section.

Beamsville fair was cancelled on Thanksgiving Day. Too much rain.

Lions Club meets next Tuesday night. First meeting of the 1945-46 season.

This is Fire Prevention Week. Have you cleaned the rubbish out of the cellar and the attic.

Members of Grimsby and North Grimsby councils and municipal officials will attend service in Trinity United church on Sunday morning next.

The continuous wet weather of the past two weeks have made the grapes a quagmire and the grape grower is finding it next to impossible to get the crop out and drawn out to the packing shed.

Charles J. Delaplane has completed the drawing of plans for a fine new home on the lake front, west of Baker's Road, for Mr. Forbes who recently purchased the property.

Have you got all your old clothes cleaned out of the closets and delivered to the collection depot on Main street west? If not, you better do so at once. The drive for clothing is only being conducted in Grimsby this week.

On Oct. 19, John Butler, C.N.R. station agent, at Beamsville, for the past 32 years will relinquish his post and retire to private life. Mr. Butler was transferred to Beamsville from Burlington and has had a long and successful career with the C.N.R.

Provincial Constable Hart, who has charge of the police work in the three south municipalities is moving to Smithville to reside. He will be leaving Grimsby about the end of the month. His apartment on Main west will be occupied by H. T. Stewart, manager of the Bell Telephone.

Assessor Wm. Rennie has completed his assessing job for 1945 and returned his roll. The town population figures stand at 4,560, slight increase over last year. The assessment shows an increase of around \$90,000, the total assessment being \$3,320,180.—Burlington Gazette.

Provincial Police reiterate a request to motorists to keep a record of the size, make and serial number of tires on their autos. "Tire thefts are prevalent throughout the district, almost a nightly occurrence, and in most instances the stolen tires are sold to the police. Without this information, the police can be of little assistance in recovering the tires and prosecuting the offenders.

Numerous complaints have been made to the Provincial Police regarding motorists who through oversight or direct refusal fail to lower the beam of their headlights. Under the Highway Traffic Act, motorists who fail to lower their beams are subject to prosecution and fine. Most complaints have been received regarding the Highway, but there are no offenders on the Queen or of Way and other highway in the district.

Around The GRIMSBY High School

"JANIE" Field Day may be over and there are still scratched and bruised knees and many stiff joints. The school champs are MacPog-acher and John Pasche. Major E. A. Sullings, a giant in the sports, being chief in the races. Results of the day will be found on the sports page.

Don Riches is taking school group pictures for Dorothy Metcalfe is taking their school jewellery. Get your orders early.

G.H.S. choir practices being held during the noon hour.

Obituary

GEORGE C. WHYTE

A resident of Grimsby for 34 years, death came quietly on Sunday afternoon to Mr. George C. Whyte, a highly respected resident of this district.

Deceased was born in Ottawa October 17th, 1860, and was in his 85th year. He moved to Grimsby with his family in 1911 and purchased a block of fruit land on the south side of Main street, just west of the cemetery gates and erected thereon a fine new home.

With three of his sons he served overseas in the First Great War. He retired from farming some years ago. His wife predeceased him in 1930.

Surviving are three sons and one daughter, Hugh K. of Grimsby; Barclay of Penitence, B.C.; Paul of Toronto and Mrs. Sydney Hutton of Ottawa.

Funeral services were conducted from the Stonehouse Funeral Home on Tuesday afternoon, Rev. E. A. Brooks, officiating. Interment was in the family plot in Queen's Lawn cemetery.

Casket bearers were a grandson, Harold Whyte of Grimsby, Harold Woolverton, Nelles Rutherford, George and Malcolm Nelles, Chas. A. Farrell.

M. S. GLASSCO

Prominent over a long span in business and sports circles of Hamilton and district, Malcolm Sterling Glasco died at his home, Fifty road, Winona, on Sunday.

Mr. Glasco, who was president of the M. S. Glasco Company, Limited, and of the Glasco Limited, jam manufacturing firm, was long noted as outstanding at both tennis and curling. As a member of the Thistle Club, of which he was a past president of the curling section, he had taken part with much success in numerous tournaments. For over 25 years he was recognized among the leaders in tennis championship play. Many trophies were in his possession both for single competition and in doubles.

He is survived by his widow, the former Josephine O'Brien; one son, Malcolm Donald Glasco, Hamilton; four daughters, Mrs. R. O. Denman, Greensville; Mrs. C. O. Henderson, Brantford; Mrs. R. H. Willard, Hamilton, and Mrs. V. J. Hutton, Montreal, Que.; two brothers, R. D. Glasco, Hamilton, and H. W. Glasco, Winnipeg, Man.; four sisters, Miss Winnifred Glasco, Miss Marjorie Glasco, Mrs. Fred Jelfa, all of Hamilton, and Mrs. M. C. Otter, of Toronto; also nine grandchildren.

The funeral took place from his residence, 50 Road, Winona, Ont., on Tuesday afternoon. Interment in Hamilton Cemetery.

Cubbing

On Friday evening Oct. 5th, the Grimsby Wolf Cub pack met with the old wolves for their first indoor meeting of the fall season. Several new cubs were welcomed and the pack is looking forward to the coming winter's activities.

After the opening ceremony and dues collection a variety relay caused much merriment especially when feet and "grins" were measured. After the final count the blue six was found to have the most points.

Akela reminded the cubs about Boy Scout Apple Day, Saturday, October 13th in which they are taking part. Prizes will again be awarded for the best decorated basket and the boys will be busy this week with thumb tacks and paper striving to turn out a winner. The baskets are to be brought to Friday evening's meeting at the High school.

A rousing sing-song around the camp fire followed by mouse call and prayer rounded out the evening's programme.

Previous to this meeting two Friday evenings were spent playing baseball and if a big league talent scout had been around the High school grounds he would probably have found some future world series material. What some of the boys lacked in size they made up in enthusiasm. Messrs C. Mote and W. H. Kelterborn were umpires for these games. The team captains were Douglas Kelterborn, Dean Wilson, Marvin Robinson and Chris Wade. Douglas Kelterborn and Marvin Robinson's teams are in the lead now but the schedule has not been completed.

Fellow Canadians

We can all get into the life insurance business this week, and we hope most Canadians are in there now, punching away for all they are worth, with old clothes. A good life insurance policy is the one which best covers the needs of the beneficiary and is best adapted to the circumstances of the contractor.

Millions of homeless, cold and shivering people in Central Europe and Asia are facing another long winter without clothing. Is there any doubt about their needs? We are told on good authority that many of these people will live if they get sufficient clothing, underwear, socks, shoes, overcoats, dresses, shirts, suits, sweaters, scarfs, etc. to protect themselves against the long months of cold weather.

We can do a lot here in Canada, and will do a lot, to insure many of those lives by making a contract today with ourselves to go through our clothes closets, store rooms, attics and cellars, and hunt out every single article of wearing apparel that would be useful to those people. The articles need not be new, simply clean, sanitary and serviceable.

Money, even if these millions of people had it, cannot buy new materials that do not exist. It is our worn material that has to be sent.

Fellow Canadians, we have a lot of that material, if we will just gather it together. Doubtless, some of it would at some time in the future, be useful to us, but we can get along without it.

To be hungry, cold and homeless is terrible, but to be without clothes is fatal. Burlap wrapping and rags will not protect. As individuals we cannot do much about their hunger that isn't being done now by the governments, but as individuals, we can do a lot about getting that much needed clothing material to those poor little suffering boys and girls and their helpless parents and grandparents.

If you have not already done so, please make a point of gathering up every such article as you can spare today, and seeing to it that your bundle is delivered this week to the White Elephant store, Grimsby, or any other collection depot that is more convenient to you. You'll always be glad you did it.

HYDRO provides fast, dependable

"Made to order" SERVICE

Do you realize that Hydro power must be made to your order . . . made and delivered to you so quickly that it would seem to be always there? Electricity cannot be stored. It must be made within a tiny fraction of a second of the time it is used. The flow of water to the generators is controlled by sensitive automatic gates, so as to make only enough for the demands of the moment.

Whenever you flip a switch, you use electricity before the water which made it can leave the power house. Your order is received and filled faster than a good camera can wink its eye. Yet the power comes to you through a giant transformer station, a local distribution station, a small transformer near your home . . . all connected by many miles of transmission and distribution lines.

Millions of dollars worth of equipment and a multitude of watchful personnel stand ready to serve you at the touch of your finger on a switch at any moment of the day or night. That is what Ontario has learned to expect from Hydro service.

Transformer Station

ONLY THIS ONE PART DEPENDS ON YOU

Your house must be adequately wired if you are to have full benefit from the electricity you may want to use. If your place is wired for a range and a water heater, you can assume that you have enough wiring from the small transformer to your house. From there, be sure that you have enough circuits and plenty of outlets conveniently placed in every room. Remember that any one outlet can supply only a limited amount of power efficiently and safely. Remember, too, that you will want an ever-growing number of electrical time to wire adequately is when you are building or making major alterations. Plan now for your electrical future by wiring completely.

LINCOLN'S LOCKHART

made under this act, from the dominion bureau of statistics, any information on the subject of the age of such pensioner which may be contained in the returns of any census taken more than thirty years before the date of the application for such information.

I know that this matter has been brought to the attention of the federal authorities many times, or at least I am so informed. This information is given only to the municipal authorities. I know of many people who came to this country in 1912, 1913 and following years, from the motherland and other countries. Often they find that the record of their birth has been destroyed, or perhaps it was not established in the first place. These people have lived in this country for thirty years or more, but are unable to establish their exact age. Under the present act, the dominion bureau of statistics is unable to give anything beyond 1911. As a humble representative of one section of this country I know of several instances in which British subjects, by birth or naturalization, who have proven themselves good citizens, were unable to prove their age. If by a modification of the act we can assist them to prove their age and thus get their just rights, it is our duty to do it and we should do it immediately.

I pass on to another phase of the matter that I should like to bring to the attention of the government. To a large extent the federal treasury will have to find the money, and I suppose they will tell us what they propose to do and how much it is going to cost. It seems to me that a broad policy should be laid down. Reference has been made by the hon. member for Spadina and others to the means test. In my opinion this means test is abominable. As the hon. member said, if he had had anything to do with it years ago he would have thrown it out the window. I assume we shall be told what is to be done about doing away with the humiliating experience that these old citizens of the country are subjected to.

Members in every part of the house know of people in the humblest walks of life who by working hard have saved sufficient to buy a little four-roomed cottage. Many such people are faced with the humiliating experience of being deprived of passing that on to a crippled son when they leave this earthly abode. I have had experiences of that kind. If we do not wipe out the means test, we should modify the act so that those who apply for old age pensions will be able to obtain a reasonable part of what they have struggled a lifetime to get, and still be given their just rights by way of a pension. I know the government have heard this story for many years, but nothing has been done. We go along in a state of lethargy and do not seem to realize that these people have not been getting their just rights.

An hon. MEMBER: They waited for an election.

Mr. LOCKHART: As someone back here very aptly says, they waited until an election came along. Someone has been asleep at the switch, and it is about time he woke up. This has been placed on the doorstep of the government, and I am simply pointing out some of the things I have experienced. I want them to give full cognizance to what I am saying.

I should like to say a word about the earning capacity of pensioners. A pensioner is allowed to earn \$125 a year. He is also given \$3 a month as a so-called cost of living bonus; this small pittance is added to his pension, while others in Canada were receiving double and treble that amount in recognition of the increased cost of living. Again I say that the very essence of our citizenship, those who have pioneered and built up this country were obliged to take less than their just rights.

Again, an old age pensioner is allowed to earn over and above his pittance of a pension only \$125 a year. No matter what action might finally be taken by this house on old age pensions after the subject has been duly considered by, I hope every member, I would ask the government to increase the amount which an old age pensioner is permitted to earn, in addition to the small old age pension he receives, because many of these people still have a lot of activity left in them and still have a great love for this country and would like an opportunity to do what work they can. I should like to see the amount they can earn materially increased, and if the government does not propose to do that, I am going to rise in my place in this house and demand it. I know the hon. member for Macleod (Mr. Hansell) the other night said that it was not much use for any of us to rise and say what we wanted because everything was cut and dried and we got nowhere anyway. But I say,

Mr. Speaker, that at least we can make our views known to the government and let them and the country know that we are alive to the situation which exists.

Another point I wish to bring to the attention of the government is the deductions which are made from the old age pensions by reason of a military pension being received. A father and mother in receipt of an old age pension may have been depending on a soldier son who went overseas and was incapacitated or perhaps lost his life on the battlefield or died as a result of service. If the hon. member for Spadina were present at the moment he could cite many such cases. I have one in mind. The government knows all about it because I believe the provincial government of Ontario has brought it to their attention. If not, I shall be glad to furnish the details. This old couple on the death of their son were getting about \$25 or \$30 a month. They were also paid a mere pittance in the form of old age pension. There were doctors' bills to pay and many other unfortunate circumstances. I have the details here on my desk. To state it briefly, the old age pension they received was adjusted because the act provided that that had to be done. If the minister wants the facts I will give them to him. I shall not take the time of the house to relate them now. It is time that the government woke up to the fact that the people of this country want them to do what is right and fair to the best of our years.

I also wish to bring up the question of proving citizenship in order to get the old age pension. An hon. MEMBER: That is not in order.

Mr. ROSS (Souris): It is very much in order.

Mr. LOCKHART: Certainly it is because citizenship has to be proved in order to get the old age pension. There are British subjects in this country who have been unable to prove their citizenship and are now well up in years.

Here's how you can help speed LONG DISTANCE CALLS

THE lines are still loaded. Please continue to use Long Distance as sparingly and efficiently as you can. For instance:

Do you use this sequence when placing an out-of-town call? It is important, saving both the operator's time and yours—

1. First give the name of the city you are calling.
2. Then the number of the distant telephone.
3. When the operator asks it, the number of the telephone from which you are calling.

You can help, too, by placing as many calls as possible during off-peak hours: Before 9:30 a.m.; between 12 noon and 2:30; between 5 and 7 and after 9:30 p.m.

Remember—Night rates begin at 6 p.m.

ISSUE FIRST WRIT

July 2 he was re-arrested on a charge of improperly having public property. Since that date he has been held in close confinement at the military jail, and it is understood that the charge has not been investigated by Thompson's commanding officer as required by military law. It is further charged that Thompson was illegally remanded for court-martial by an orderly officer.

A court-martial hearing was finally held Sept. 13, but Mr. Rogers objected to the jurisdiction of the court due to the illegality of preliminary proceedings.

A motion for the discharge for Thompson will be made Oct. 9 before the Supreme Court, of Ontario by Mr. Rogers.

working an eight acre farm at the home place on Maple avenue and 100 acres on the Hunter sideroad in North Grimsby west.

He was in his 64th year, having been born in Grimsby township just a year before it was split into North and South Grimsby. He was born in the south portion, a son of the late Arthur and Mrs. Hunter.

He was a member of Trinity United Church and of Union Lodge No. 7, A.F. & A.M. He served the Town of Grimsby as a Water Commissioner for 13 years from 1924 to 1937. He was a member of Hamilton Kiwanis Club.

He is survived by his wife the former Mabel Purdus of Soronto, two nephews and one niece.

Funeral services were held from his late home, Maple avenue, on Sunday afternoon and were very largely attended by friends, neighbors, fruit growers and businessmen from all over the district. The floral tributes were many and beautiful and quietly attested to the high regard in which he was held by all who knew him. Rev. W. J. Watt, officiated at the house and grave side. Interment was in Queen's Lawn cemetery.

Casket bearers were, Philip Tregunno, James Walker, Victor Catton, Merton Zimmerman, Walter McRae and P. E. Wilkins.

NIAGARA PENINSULA

tries and cities of the world, if you had one spot to choose to remain for the rest of your life, what would be your choice?"

Without a moment's hesitation, the well travelled remittance man replied, "Halfway between Hamilton and Niagara Falls would be my home."

The Canadian, with a note of surprise yet ringing with pride said, "My home is Hamilton! what may I ask, prompted you to choose the Niagara Peninsula as your 'Shangrila'?"

"It is like this my friend" replied the wanderer, "In that section of the land, there never has been a major catastrophe or disaster. No blizzards, tornadoes, earthquakes or tidal waves slashing at the countryside with unleashed fury. No drought, famine or pestilence taking undue toll of lives. War at its worst has left no permanent scars or horrors.

The climate is such as the Good Lord decrees, four delightful seasons:-

Spring:-With its promise of hope and courage, when nature gradually assumes her garb of warmth, tenderness and freshness.

Summer:-Bringing days of flowery, sunshine and blue skies. When the Good Mother Earth yields her annual abundance of fruits and vegetables. Showering her gifts with lavish prodigality.

Fall:-Autumn, fulfilling her functions, painting the trees from green to scarlet, gold and brown. Heaping the harvest and filling the grainaries and knowing that all is well with mankind and this part of the universe.

Winter:-The King of seasons, majestic ruler of the war. Silver snows have taken the place of summer-scented flowers. It is the time of happy firesides, intimate friendship, long evenings and significant silence. Dream-time as well as work-time, imparting to life the richness of vitality. A symbol of purity, grandeur and power. Yes, my friend, this little corner of the world, stands for health, wealth and happiness.

LINCOLN'S LOCKHART

to prove their citizenship. There is no question at all that they lived in this dominion, some of them for forty or fifty years, and in the case of one that I know of, for 60 years. But certain records have been lost and these people are unable to establish where they were born or what their original citizenship was. They are among the pioneers, the very best citizens of our country. They have been good citizens for thirty, forty and fifty years. There should be some provision in the act whereby these people could obtain whatever pension is paid and

at whatever age it is paid, instead of being denied the pension as they are now because of their inability to prove that they are British subjects. The act is definite on that point; they must prove their citizenship. If I am wrong the minister will correct me, but I believe I am right. That is one thing which certainly needs rectifying.

There is another thing that needs rectifying, and to illustrate my point I will cite a case which came to my attention about two months ago. A woman of eighty years of age, keen and active, had been receiving the old age pension formerly \$20, now raised to \$25 by reason of the increased cost of living, or supplementary aid or whatever it is called. She went to visit a sick daughter in the city of Detroit. The daughter was lying at the point of death. The act says that the pensioner must not stay outside Canada for more than thirty days. The daughter lay at the point of death, not for thirty days, but for four long months, during which the mother sat at her bedside, administered the medicine and perhaps had considerable to do in bringing about her daughter's final recovery. Because this pensioner had stayed outside Canada more than thirty days her old age pension was cut off, and she has to go through the whole business of applying again. Surely some latitude should be allowed to the provincial gov'ts, which are charged with the administration of the act.

But the act itself says that the pension must be cut off if the pensioner stays outside Canada for more than thirty days. There may be many extenuating circumstances which ought to be taken into consideration. I know of another case, where a father visited his son in Philadelphia, and while there took ill and was in hospital for two and a half months. His pension was cut off. I ask the minister to consider these cases. Old age pensions will be much discussed at the dominion-provincial conference, and I appeal to the minister now to make sure that these injustices to the best of our citizenship are definitely cured and these inconsistencies rectified. They are injustices done to what I always have felt is the very cream of our citizenship, those who have helped to build up this country and to whom we owe so much. I ask the minister to make sure that when this subject of old age pensions is considered, steps will be taken to ensure that injustices and inconsistencies of the sort I have mentioned are definitely cured.

Grimsby's Mayor Wants Pork Chops

(Grimsby, England News)

Here in Grimsby we are all familiar with the fighting spirit of the Mayor (Ald. C. W. Hewson). His presidential address at Blackpool on Monday, at the annual general meeting of the National Federation of Meat Traders' Associations, brought him into contact with a much wider public, and now the whole nation has learned something of his forthright style.

Everyone is agreed that is, 2d. worth of meat is not enough. There are international difficulties which bar the way to a bigger ration at present, but it is necessary for someone to tell the Government in the straightest language that that ration must not continue one moment longer than necessity demands, truly the thief of time, must not also be the thief of the nation's meat.

Ald. Hewson was speaking for all of us when he declared that they must tell the Ministry the people did not like being supplied with pork in summer and lamb in winter. He suggested that if butchers could divide the pork into 1s. 2d. rations there was no surprise in the fact that scientists had learned how to split the atom.

Another sentence which will be greeted with acclamation is that the "public do not want to hear about calories and vitamins; what they want to-day is chops, and more chops."

Note:—Now, what do you say up residence in their recently purchased meat rationing—Ed.

Timely Advice

(St. Catharines Standard)

Fruit growers in solemn conclave this winter, should have one resolve and one slogan, to wit: "We will live 1945 down, in time, and make 'em like it."

It is painful to receive from a prominent member of the Press Gallery at Ottawa, and a former

Standard editorial staff man, this comment: "How about getting Wally Hunsberry and the boys to pull up their socks in the peach situation? Everything The Ottawa Journal says is on the beam. We still call the Niagara District home, but we blush when people up here start to talk about peaches because the ones that reach here are—(gee goosh) awful."

This comment is published in the interests of the fruit growing industry. An ostrich head in the sand attitude on the issue would be puerile and futile.

There's nothing that makes a man so touchy as a result of having been touched so much.
